

VEEC Assignment Form Template: Replacing Electric Resistance Water Heater (Activities 1C and 1D) – Residential Premises

Version 1.8 – 1 August 2024

Section 1: Consumer rights information

As the energy consumer, you own the rights to create certificates for energy saving activities undertaken at your premises under the Victorian Energy Upgrades program. One certificate represents one tonne of carbon dioxide equivalent (CO₂-e) to be reduced by the activity.

You can assign your right to create certificates to an accredited provider under the Victorian Energy Upgrades program. In assigning your right, the accredited provider will be entitled to create and own the certificates for the activity undertaken at your premises. In return, the accredited provider should provide you with an identifiable benefit (e.g., price reduction on a product, free installation, or a cash-back arrangement).

You are responsible for ensuring you are satisfied with the terms of the assignment of certificates to GB Environmental Trading Pty Ltd, the accredited provider (as detailed below) prior to proceeding with the activity.

If you experience any issues with the outcome of this activity, you should contact GB Environmental Trading Pty Ltd to resolve the matter. For any outstanding issues, you can contact program staff members at the Essential Services Commission, the government body responsible for administering the program, by sending an email to veu@esc.vic.gov.au.

Section 2: Installation details and installer declaration

Part A: Installation details

Installation details
Installation address:
Installation date:

Electrician details
Name:
Company name:
Company address:
Phone number:
Electrician licence number:

Licensed plumber details

Name:

Company name:

Company address:

Phone number:

Plumber licence number:

Registered plumber details¹

Name:

Company name:

Company address:

Phone number:

Plumbing registration number:

What activity type has been conducted?

- 1C – Water heating – Electric boosted solar replacing electric resistance
- 1D – Water heating – Heat pump replacing electric resistance

Decommissioned product details

Type of system being replaced Storage or Instantaneous
 Electric boosted solar with non-functioning components

Brand:

Model:

Size of tank being replaced (if storage) Less than 150 litres
 150L to 225 litres
 225 to 300 litres
 More than 300 litres

Please specify the method used to decommission the product:

¹ These fields are only required to be included/completed if installer undertaking the upgrade and signing this form is a registered plumber (not a licensed plumber)

Installed product details

Brand:	Model:
System size:	Serial number(s)
Heat pump model number:	Tank model number:

* Above information (as appropriate) to be captured for each product installed as part of this assignment of rights

Pre-installation and installation sizing details *

Number of bedrooms in the premises: 1-2 3 4 or more

Do the product(s) installed match the recommended size in the Water Heating Consumer Fact Sheet? Yes No*

*If 'no', please provide the reason why the recommended size was not installed:

Installation certificate details

Is a VBA Compliance Certificate required for the work undertaken? Yes No

Is a Certificate of Electrical Safety required for the work undertaken? Yes No

VBA Compliance Certificate number:

Certificate of Electrical Safety number:

Form of benefit provided

Upfront cash Price reduction Delayed cash Free installation Other (please describe)

Amount of benefit provided for assignment of certificates:

Part B: Declaration by installer

I declare that:

- I am registered or licensed to undertake the installation of the above product(s)
- I am registered or licensed to decommission the replaced product(s), or the replaced product(s) have been decommissioned by an appropriately registered or licensed person
- the product(s) have been installed at a residential premises
- where applicable the consumer has been informed that a VBA Compliance Certificate and/or Certificate of Electrical Safety is required for the work undertaken and will be provided a copy of the relevant certificate within five working days of installation
- the product(s) replaced as part of this installation were not installed for the purposes of being decommissioned as part of this installation

- I have provided the consumer with the VEU Water Heating Consumer Fact Sheet and have
 - provided them clear and accurate information on the suitability of the product to be installed to meet their water heating needs.
 - advised them on whether the size of the product to be installed is consistent with the size recommended in the fact sheet.
- where upgrade involves replacement of electric boosted solar water heater(s), I have assessed the heater and confirmed that:
 - the system was installed at least 5 years prior to the date of this upgrade
 - the heater’s solar heater exchanger and associated solar heating components are non-functional and are no longer covered by warranty.
- the waste or debris generated from the activity, including the decommissioned product(s) (where it is practical and safe to remove the decommissioned product(s)), has been removed from the premises
- the construction of the premises in which the activity was undertaken was not completed in the two-year period preceding the date the activity was undertaken.
- the installation meets all relevant laws, standards and building codes.
- the information provided is complete and accurate and that I am aware that penalties can be applied for providing misleading information in this form under the *Victorian Energy Efficiency Target Act 2007*.

Section 3: Agreement between installer and consumer on scope of decommissioning work as part of installation

As part of the installation of the new product(s), the installer will: (tick applicable box)

- disable, decommission and remove the replaced product(s) for disposal
- disable and decommission the replaced product(s) so that it cannot be used again, but the product will be left on site as it is not practical and safe for the product to be removed

As part of the installation of the new product(s), the installer will: (tick applicable box)

- undertake, or organise, the completion of all necessary building repair work as part of the installation
- undertake, or organise, the completion of some of the building repair work as part of the installation (list what work will be included and what will not be included)

- not be responsible for undertaking or organising any building repair work as part of the installation

Part A: Declaration by installer

I declare that:

- I have informed the consumer of the scope of work required to decommission the old product(s) and install new product(s) and the consumer has agreed to above scope of work

Signature:	Date:
------------	-------

Part B: Acknowledgement by consumer

I acknowledge that:

- the replaced product(s) will need to be decommissioned in a practical and safe manner so that it cannot be reused again
- I have been informed and agree to above scope of work being carried out by the installer as part of the decommissioning of the old product(s) and installing new product(s)

Signature:	Date:
