

VEEC Assignment Form Template: Replacing a Gas or LPG Water Heater (Activities 3C and 3D) – Residential Premises

Version 1.5 – 1 February 2025

Section 1: Consumer rights information

As the energy consumer, you own the rights to create certificates for energy saving activities undertaken at your premises under the Victorian Energy Upgrades program. One certificate represents one tonne of carbon dioxide equivalent (CO₂-e) to be reduced by the activity.

You are able to assign your right to create certificates to an accredited provider under the Victorian Energy Upgrades program. In assigning your right, the accredited provider will be entitled to create and own the certificates for the activity undertaken at your premises. In return, the accredited provider should provide you with an identifiable benefit (e.g. price reduction on a product, or a cash-back arrangement).

You are responsible for ensuring you are satisfied with the terms of the assignment of certificates to **GB Environmental Trading Pty Ltd**, the accredited provider (as detailed below) prior to proceeding with the activity.

If you experience any issues with the outcome of this activity, you should contact **GB Environmental Trading Pty Ltd**, to resolve the matter. For any outstanding issues, you can contact program staff members at the Essential Services Commission, the government body responsible for administering the program, by sending an email to veu@esc.vic.gov.au.

Section 2: Installation details and installer declaration

Part A: Installation details

Installation details
Installation address:
Installation date:

Electrician details
Name:
Company name:

Company address:

Phone number:

Electrician licence number:

Licensed plumber details

Name:

Company name:

Company address:

Phone number:

Plumber licence number:

Registered plumber details¹

Name:

² This information is not required to be recorded on the VEEC assignment form if recorded in the invoice for the activity.

Price of installed product(s) including GST (before VEEC incentive): \$

Consumer payment for installed product(s) including GST³: \$

Part B: Declaration by installer

I declare that:

- I am registered or licensed to undertake the installation of the above product(s)
- I am registered or licensed to decommission the replaced product(s), or, the replaced product(s) have been decommissioned by an appropriately registered or licensed person
- the product(s) have been installed in a residential premises
- where applicable, the consumer has been informed that a VBA Compliance Certificate and/or Certificate of Electrical Safety is required for the work undertaken and will be provided a copy of the relevant certificate within five working days of installation
- the product(s) replaced as part of this installation were not installed for the purposes of being decommissioned as part of this installation
- the consumer has paid \$200 or more (including GST) for each installed product
- I have provided the consumer with the VEU Water Heating Consumer Fact Sheet and have
 - provided them clear and accurate information on the suitability of the product(s) to be installed to meet their water heating needs.
 - advised them on whether the size of the product(s) to be installed is consistent with the size recommended in the fact sheet.
- I have provided the consumer with a copy of the warranty (with a minimum period of 5 years) for any heat pump water heater product(s) installed.
- where upgrade involves replacement of gas boosted solar water heater(s), I have assessed the heater and confirmed that:
 - the system was installed at least 5 years prior to the date of this upgrade
 - the heater's solar heater exchanger and associated solar heating components are non-functional and are no longer covered by warranty
- the waste and/or debris generated from the activity, including the decommissioned product(s) (where it is practical and safe to remove the decommissioned product), will be removed from the consumer's premises and will be disposed of in accordance with all applicable waste management requirements under the *Environment Protection Act 2017* and its regulations.
- the construction of the premises in which the activity was undertaken was not completed in the two-year period preceding the activity

³ Minimum amount of \$200 (including GST) must be paid by the consumer per installed product.

- the installation meets all relevant laws, standards and building codes.
- the information supplied in this form is complete and accurate and I am aware that it is an offence to provide false or misleading information to the Essential Services Commission under the *Victorian Energy Efficiency Target Act 2007*.

Installer signature:

Date:

Section 3: Agreement between installer and consumer on scope of decommissioning work as part of installation

As part of the installation of the new product(s), the installer will: (tick applicable box)

- disable, decommission and remove the replaced product(s) for disposal
- disable and decommission the replaced product(s) so that it cannot be used again, but the product will be left on site as it is not practical and safe for the product to be removed

As part of the installation of the new product(s), the installer will: (tick applicable box)

- undertake, or organise, the completion of all necessary building repair work as part of the installation
- undertake, or organise, the completion of some of the building repair work as part of the installation (list what work will be included and what will not be included)
- not be responsible for undertaking or organising any building repair work as part of the installation

Part A: Declaration by installer

I declare that:

- I have informed the consumer of the scope of work required to decommission the old product(s) and install new product(s) and the consumer has agreed to above scope of work

Installer signature:

Date:

Part B: Acknowledgement by consumer

I acknowledge that:

- the replaced product(s) will need to be decommissioned in a practical and safe manner so that it cannot be reused again

- I have been informed and agree to above scope of work being carried out by the installer as part of the decommissioning of the old product(s) and installing new product(s)
