

As the energy consumer, you own the rights to create certificates for energy saving activities undertaken at your premises under the Victorian Energy Upgrades program. One certificate represents one tonne of carbon dioxide equivalent (CO2-e) to be reduced by the activity. You are able to assign your rights to create certificates to an accredited provider under the Victorian Energy Upgrades program. In assigning your right, the accredited provider will be entitled to create and own the certificates for the activity undertaken at your premises. In return, the accredited provider should provide you with an identifiable benefit (e.g. price reduction on a product, free installation or a cash-back arrangement). You are responsible for ensuring you are satisfied with the terms of the assignment of certificates to GB Environmental Trading Pty Ltd, the accredited provider (as detailed below) prior to proceeding with the activity. If you experience any issues with the outcome of this activity, you should contact GB Environmental Trading Pty Ltd to resolve the matter. For any outstanding issues, you can contact program staff members at the Essential Services Commission, the government body responsible for administering the program, by sending an email to veu@esc.vic.gov.au.
