

As the energy consumer, you own the rights to create certificates for energy saving activities undertaken at your premises under the Victorian Energy Upgrades program. One certificate represents one tonne of carbon dioxide equivalent (CO₂-e) to be reduced by the activity. You are able to assign your rights to create certificates to an accredited provider under the Victorian Energy Upgrades program. In assigning your right, the accredited provider will be entitled to create and own the certificates for the activity undertaken at your premises. In return, the accredited provider should provide you with an identifiable benefit (e.g. price reduction on a product, free installation or a cash-back arrangement). You are responsible for ensuring you are satisfied with the terms of the assignment of certificates to GB Environmental Trading Pty Ltd, the accredited provider (as detailed below) prior to proceeding with the activity. If you experience any issues with the outcome of this activity, you should contact GB Environmental Trading Pty Ltd to resolve the matter. For any outstanding issues, you can contact program staff members at the Essential Services Commission, the government body responsible for administering the program, by sending an email to veu@esc.vic.gov.au.

Owner Details and Postal Address

First name: _____

Last name: _____

Address: _____

Legal entity name / Trustee: _____ Trading name: _____

What activity has been conducted?

1A Decommissioning electric and installing gas / LPG storage

1B Decommissioning electric and installing gas / LPG instantaneous

1C Decommissioning electric and installing electric boosted solar

1D Decommissioning electric and installing heat pump

1F Decommissioning electric and installing gas / LPG boosted solar (SWH)

3B Decommissioning gas / LPG and installing gas / LPG boosted solar (SWH)

Was this activity undertaken at a scheduled activity premises (SAP)? Yes No
(Visit www.veu-registry.vic.gov.au/Public/SAPList.aspx for reference to SAP.)

Evidence of decommissioning

Geo-tagged photo(s) showing:

- the unit before the upgrade to demonstrate eligibility
- the unit rendered permanently inoperable
- the brand, model and serial number of the decommissioned product
- the installed unit after installation
- the brand, model and serial number of the installed product
- Recycling Receipt provided (if one was issued)

Please note not all combinations are eligible for VEECs  *Photos are imperative*

Existing System & Method of decommissioning

To claim VEECs you must decommission a working system.

Type of system being decommissioned

Gas Electric

Method of decommissioning (Please specify what method was used to decommission the product)

Method of disposal (or reason if not disposed)

New system details

Installation Date _____

VEECs must be created by the 30th of June in the year following the installation.

System Brand: _____

Tank Serial #: _____

System model (as registered with the ESC): _____

OFFICE USE ONLY: Declaration by accredited person

GBENVIRONMENTAL TRADING PTY LTD declares that it, and all schemes participants, have complied with the code of conduct at all times during regulated actions and prescribed activities.

Signed by GBENVIRONMENTAL TRADING PTY LTD (COMPLIANCE OFFICER)

Signed on _____ / _____ / _____
